BIOGRAPHY

Toast Rack is not your average Twitch streamer. At 59 years old, Toast Rack brings a unique gentlemanly vibe to streaming the notoriously difficult online action game Escape from Tarkov. He weaves in stories of his life experience in video game development, software design and film editing for shows including Mythbusters, The Amazing Race and Dancing with the Stars. Viewers love his sense of fun even in moments of total disaster. Many call him Papa Toast or Pestily's dad, and come to him for everything from life advice to product recommendations.
